## **DETAILED ACTION**

### ***Response to Amendment***

This Office Action is in response to applicant's communication filed October 23, 2006 in response to PTO Office Action dated July 21, 2006. The applicant's remarks and amendment to the specification and/or claims were considered with the results that follow.

Claims 1-9, 11-19, and 21-29 have been presented for examination in this application.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(f) he did not himself invent the subject matter sought to be patented.

Claims 1-9, 11-19, and 21-29 are rejected under 35 U.S.C. 102(a) as being anticipated by Java Virtual Machine Profiler Interface (JVMPI).

Regarding claims 1, 11, and 21, see pages 19-21.

Regarding claims 2, 12, and 22, see pages 32-33.

Regarding claims 3, 13, and 23, see page 22 – page 23, line 12.

Regarding claims 4, 6-9, 14, 16-19, 24, and 26-29, see pages 25-50

Regarding claims 5, 15, and 25, see page 22 – page 23, line 12.

Claims 1-9, 11-19, and 21-29 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The entity of Grarup and Liang as being the inventors for the current application does not appear to coincide with MPEP section 716.10, Attribution.

### ***Response to Arguments***

Applicant's arguments filed October 23, 2006 have been fully considered but they are not persuasive.

The Declaration under 37 CFR 1.132 filed October 23, 2006 is insufficient to overcome the rejection of claims 1-9, 11-19, and 21-29 based upon the 35 U.S.C. 102(a) rejection as set forth in the last Office action because: The correct inventorship does not appear to be attributed to the current application. Only Liang of the Liang and Grarup inventor entity has signed the 1.132 Declaration. A correction of inventorship 1.) removing Grarup as an inventor, or 2.) having Grarup sign a copy of the Declaration under 1.132, would appear to correct the insufficiency of the Declaration filed under 37 CFR 1.132.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
